TWIN FALLS, IDAHO, FRIDAY, FEBRUARY 18, 1966

TEN CENTS

## Legislator Lists Three Plans for Reapportionment

BOISE (AP)—Three basic concepts for Idaho reapportionment—along with support for longer Senate terms and setting of Legislators' pay occupied the second day of public hearings on reapportionment today. Rep. Orval Hansen, R-Bonneville, described his three reapportionment plans—which he has called principles as well as final proposals—as the Idaho Legislature's special session continued its effort to solve the problem handed it by the federal courts. One plan would superimpose 20 Senate districts for electing 35 senators onto the existing 27 districts for electing 37 representatives.

The second would provide for election of 30 senators and 63 districts throughout the state. The third would fit 27 representative districts for electing 64 senators onto the existing 27 districts for electing 37 representatives.

The second would provide for election of 30 senators and 63 districts throughout the state.

The third would fit 27 representative districts for electing 64 senators onto the existing 27 districts for electing 37 senators.

But Hansen told legislators he thinks coordination of Senate and representative districts is essential if the process is to be successful.

In response to a question, he said the districts are not coordinated in a reapportionment plan adopted in Colorado—and he said the process is extremely difficult.

Sen. Cecil Sandberg, D-Billingham, author of another reapportionment plan, asked if separate districts might not confuse the public.

Hansen said he thought not because candidates would run only in their districts, and would be responsible to them.

Hansen was asked if he was considering a question—said he favored six-year terms for state senators but believes two-year terms should be continued for representatives.

At present both senators and representatives are elected for two-year terms.

He said he did not believe four-year terms for senators would be satisfactory because the senators would represent the people and state officials and half would run with the See LEGISLATOR, Pg. 2, Col. 4

CENSUS ENUMERATOR Mrs. R. H. Jeff, right, Twin Falls, asks Mrs. D. L. Roberts, 128 Eighth Ave. N., for information being compiled in the Twin Falls special census. The special census is expected to show an increase in the city's population to about 23,000. (Times-News photo)

## Enumerators Begin Work Here On Special Mid-Decade Census

Doorbells rang throughout Twin Falls Friday as census enumerators moved through residential districts to begin the special census head count. The city made application for the special mid-decade census during 1965 with the hopes that the city's population had grown to about 23,000. According to H. L. Derrick, city manager, should the increase be substantiated by the official count, Twin Falls would receive more than \$20,000 in additional funds each year. This increase would be given to those areas that are distributed to cities on a population basis.

Milton E. Allred, Denver, regional representative of the U.S. Bureau of Census, reported that 31 enumerators and two crew chiefs completed training Thursday and all were recording population data Friday.

Allred noted the preliminary estimate of the city population made in the application for the count indicate a population of 23,000.

Both the city manager and the secretary of the Twin Falls Chamber of Commerce, Ray Rosenthal, earlier estimated the population to be 23,000.

The Chamber of Commerce secretary has kept running records of certain growth indicators from which the estimate was made.

The number of electric meters installed in the city has increased from 19,000 in 1960-65 period. During the same period the number of telephones has increased 17 per cent and the number of gas meters has jumped 72 per cent.

Showing a smaller increase in the number of students in schools, which at 6,321 is only 1.2 per cent above that in 1960.

The number of city water connections, a reliable indication of the number of dwelling units, has increased 8.7 per cent during the five-year period.

Elsewhere, two helicopter crashes took the lives of seven Americans. An eighth American died a hero's death when he threw himself on a Viet Cong grenade.

There has been much speculation about why the Communists have not launched any major attacks since late last year. There have been reports that some forces had left the country.

It is felt in qualified quarters, however, that the main-force units have been lying low because they have been kept in place and have been forced to change some of their plans by U.S. troop movements and by Allied offenses.

There are indications that some smaller forces have been moving south of the Plei Me area and into Darlac Province. Some major-scale fighting is expected to occur in that area.

To a large degree, most actions have been carried out by the Communists have been attacks on outposts and on regional and popular force units.

Derrick noted additional factors which indicate rapid city growth. He cited the establishment of Challenge, Cresco and Butterfield.

The Allies reluctantly abandoned one of the units of Victory in Operation White Wing, the lush An Lan Valley. The last trooper of the U.S. 1st Air Cavalry Division involved there pulled out.

It had become clear the Saigon government was unwilling or unable to send in an occupying force to protect that mountain-rimmed area on farms and villages west of Dong Son.

Officials said that one unit of the People's Army had been sent to the area south of Hansen.

The youths, who had been clutched American troopers and begged to be flown to safety. Many were.

Although the Communists were accused of trying to keep youths alive, the Viet Cong had been shown to be fighting to the death.

Officials consider that the enemy forces are now showing a favorable significant trend.

Concluding services will be held at Jerome Cemetery. Friends may call Friday, Friday evening and until time of service.

**TWIN FALLS** — Funeral services for Wilbur C. Van Zante will be held at 2:30 p.m. Monday at White Mortuary Chapel. Rev. Dr. Ernest E. Rutherford, pastor of First Lutheran Church, concluding services will be held at Jerome Cemetery. Friends may call Friday, Friday evening and until time of service.

**TWIN FALLS** — Funeral services for Mrs. Nellie Boos Pastor will be conducted at 4 p.m. Monday in Twin Falls Mortuary Chapel. Final rites will be held at Sunset Memorial Park. Friends may call Friday, Friday evening and until 1 p.m. Monday, and from 2 to 4 p.m. Monday at the church.

**OAKLEY** — Funeral services for Mrs. Erba Lillian McMurray will be conducted at 2 p.m. Wednesday in the Oakley LDS Tabernacle. Concluding rites will be held at the Oakley Cemetery. Friends may call at the McCulloch Funeral Home, Burley, Tuesday afternoon, Friday evening and at the Oakley church one hour prior to services.

**TWIN FALLS** — Funeral services for Virgil Paul Catron will be conducted at 3 p.m. Saturday at the Twin Falls Mortuary Chapel. Rev. Ernest Hasselblad, Graveside services will be conducted at 1 p.m. Saturday at the Twin Falls Elks Lodge No. 113. Friends may call at Twin Falls Mortuary Friday evening and until time of services Saturday.

**TWIN FALLS** — Funeral services for Mrs. Nellie Boos Pastor will be conducted at 4 p.m. Monday in Twin Falls Mortuary Chapel. Final rites will be held at the Oakley Cemetery. Friends may call at the McCulloch Funeral Home, Burley, Tuesday afternoon, Friday evening and at the Oakley church one hour prior to services.

**OAKLEY** — Funeral services for Mrs. Erba Lillian McMurray will be conducted at 2 p.m. Wednesday in the Oakley LDS Tabernacle. Concluding rites will be held at the Oakley Cemetery. Friends may call at the McCulloch Funeral Home, Burley, Tuesday afternoon, Friday evening and at the Oakley church one hour prior to services.

**SPEAKER SLATED** — Wendell Mrs. John E. Hayes, Twin Falls, past president of the National Congress of Parents Teachers, will be guest speaker for the 50th anniversary of the PTA at 8 p.m. Tuesday at the grade school all-purpose room.

Mrs. Joe Roe Jr., PTA president, will preside for the Founders Day observance. A planning committee will be chosen.

Refreshments will be served by the room mothers of the sixth grade.

**ARMAN PROMOTED** — FILEER — Gary W. Whitwell, son of Mr. and Mrs. L. R. Kahl, Route 2, Filer, has been promoted to a radio second class. He is a radio operator at Taipei Air Station, Formosa.

## Weather, Temperatures

**MAGIC VALLEY** — Fair today, tonight and Saturday, but with some increase in cloudiness by Saturday afternoon. Winds 14-20 miles an hour at times this afternoon. Highs 35-48, lows 10-19. Outlook Sunday, variables of clouds with little change in temperature. Temperature at 8 a.m.: 27 at Filer; 26 at Jerome; 25 at Twin Falls; 24 at Pocatello; 23 at Burley; 22 at Castleford; 21 at Gooding; 20 at Twin Falls; 19 at T.F. weather bureau with 38 per cent humidity; 18 at Burley; 16 at Filer.

**SYNOPSIS AND AGRICULTURAL SUMMARY**

Bucking the trend which has continued westward over this month has been accompanied by a shift in the pressure pattern with high pressure now centered over the Intermountain Region and low pressure over the eastern Pacific Ocean. This change has brought a flow of warmer air and rising temperatures into southern Idaho.

Some further warming will occur over this district today and some increase in cloudiness Saturday associated with a developing storm off the West Coast. Latest indications are that on Sunday there will be more cloudiness but little or no precipitation in the agricultural valleys.

Afternoon temperatures yesterday in Magic Valley ranged from 48 at Gooding to 49 at Twin Falls. Overnight lows were in the mid 30s in most sections. The coldest report was -2 at Fairfield. There was no precipitation.

### FIVE-DAY FORECAST

During the next five-day period the cold front will predominate over the state and continue. As a result temperatures will be considerably milder than during the past two weeks.

The weak disturbance from the Pacific Ocean will cause some precipitation in agricultural valleys of southern Idaho. A second and more potent storm will likely spread rain and snow through the district Saturday and Sunday.

Temperatures Saturday through Wednesday will average three to four degrees above normal with a slow warming trend continuing through Saturday and probably Sunday, followed by somewhat cooler temperatures about Tuesday. Normal maximum and minimum temperatures for the period are Gooding, 41-22; Twin Falls, 41-21; and Burley, 42-22.

Expecting a little heavier than normal with a few inches of snow falling as rain and snow in Magic Valley and mostly as snow in areas near the mountain, occurring mainly during the early part of next week.

This will be a moderately windy period with prevailing directions from the south and east. Expect cloudiness to about 80 per cent of possible.

### TEMPERATURE AND PRECIPITATION

Highest temperature Thursday, lowest temperature last 24 hours, precipitation for 24 hours ending at 6 a.m. CST.

## Short Illness Takes Life of W. Van Zante

WILBUR C. VAN ZANTE, 33, died at his home Thursday afternoon of a sudden illness.

He was born Jan. 9, 1913, in Buhl, and was a resident of the Twin Falls area for 25 years. He had been accompanying his wife, Mrs. Van Zante, to the Idaho Milkshor Society's annual meeting in Crawford, Okla., Oct. 3, 1938, in Twin Falls.

Survivors include his wife, Mrs. Clara Van Zante; two daughters, Mrs. Dorothy Radford and Carolyn Radford; three brothers, Deles Van Zante, Twin Falls; Herman Zante, Twin Falls; Wesley R. Van Zante, Twin Falls; and Mrs. Anna Hollister, Twin Falls.

Services will be held Saturday morning at 10 a.m. at the Wills Motor lot.

Surviving besides his wife, Mrs. Clara Van Zante, are his mother, Mrs. Clara Van Zante, Twin Falls; two daughters, Mrs. Dorothy Radford and Carolyn Radford; three brothers, Deles Van Zante, Twin Falls; Herman Zante, Twin Falls; Wesley R. Van Zante, Twin Falls; and Mrs. Anna Hollister, Twin Falls.

Services will be held Saturday morning at 10 a.m. at the Wills Motor lot.

Surviving besides his wife, Mrs. Clara Van Zante, are his mother, Mrs. Clara Van Zante, Twin Falls; two daughters, Mrs. Dorothy Radford and Carolyn Radford; three brothers, Deles Van Zante, Twin Falls; Herman Zante, Twin Falls; Wesley R. Van Zante, Twin Falls; and Mrs. Anna Hollister, Twin Falls.

Services will be held Saturday morning at 10 a.m. at the Wills Motor lot.

Surviving besides his wife, Mrs. Clara Van Zante, are his mother, Mrs. Clara Van Zante, Twin Falls; two daughters, Mrs. Dorothy Radford and Carolyn Radford; three brothers, Deles Van Zante, Twin Falls; Herman Zante, Twin Falls; Wesley R. Van Zante, Twin Falls; and Mrs. Anna Hollister, Twin Falls.

Services will be held Saturday morning at 10 a.m. at the Wills Motor lot.

Surviving besides his wife, Mrs. Clara Van Zante, are his mother, Mrs. Clara Van Zante, Twin Falls; two daughters, Mrs. Dorothy Radford and Carolyn Radford; three brothers, Deles Van Zante, Twin Falls; Herman Zante, Twin Falls; Wesley R. Van Zante, Twin Falls; and Mrs. Anna Hollister, Twin Falls.

Services will be held Saturday morning at 10 a.m. at the Wills Motor lot.

Surviving besides his wife, Mrs. Clara Van Zante, are his mother, Mrs. Clara Van Zante, Twin Falls; two daughters, Mrs. Dorothy Radford and Carolyn Radford; three brothers, Deles Van Zante, Twin Falls; Herman Zante, Twin Falls; Wesley R. Van Zante, Twin Falls; and Mrs. Anna Hollister, Twin Falls.

Services will be held Saturday morning at 10 a.m. at the Wills Motor lot.

Surviving besides his wife, Mrs. Clara Van Zante, are his mother, Mrs. Clara Van Zante, Twin Falls; two daughters, Mrs. Dorothy Radford and Carolyn Radford; three brothers, Deles Van Zante, Twin Falls; Herman Zante, Twin Falls; Wesley R. Van Zante, Twin Falls; and Mrs. Anna Hollister, Twin Falls.

Services will be held Saturday morning at 10 a.m. at the Wills Motor lot.

Surviving besides his wife, Mrs. Clara Van Zante, are his mother, Mrs. Clara Van Zante, Twin Falls; two daughters, Mrs. Dorothy Radford and Carolyn Radford; three brothers, Deles Van Zante, Twin Falls; Herman Zante, Twin Falls; Wesley R. Van Zante, Twin Falls; and Mrs. Anna Hollister, Twin Falls.

Services will be held Saturday morning at 10 a.m. at the Wills Motor lot.

Surviving besides his wife, Mrs. Clara Van Zante, are his mother, Mrs. Clara Van Zante, Twin Falls; two daughters, Mrs. Dorothy Radford and Carolyn Radford; three brothers, Deles Van Zante, Twin Falls; Herman Zante, Twin Falls; Wesley R. Van Zante, Twin Falls; and Mrs. Anna Hollister, Twin Falls.

## NATIONAL WHIRLIGIG

BY ANDREW TULLY

**WASHINGTON** — Senate Majority Whip Russell Long has pursued me now down the hall with the anger or even a stubbed toe. It is implicit in Long's look — see into drug prices that I can't afford such a thing as a bed of pain.

After a flip-flopping speech in which he accused five American drug manufacturers of involvement in a world-wide price-fixing cartel, Long is pursuing me around the Senate lobby, full-dress hearings with a view to enacting regulatory legislation. So far, the drug industry's reaction has been predictable, which is to say Long's charge have been denied. But he is coming up with some new findings which must fascinate any citizen who has ever been sick.

Among those is his report on the price of a "wonder drug" antibiotic called tetracycline. Drug outlets never label anything simply, like G.I.'s, Long says tetracycline costs \$100 to \$120 per pound. This drug is sold to the public at 30 cents per pill. It was worse from 1954 to 1961; the price then was 50 cents a pill.

**FIXING BY CODE** — Such profitableness, Long says, are the product of the cartels' success in price-fixing and he has produced letters and documents in code purporting to reveal secret discussions among the alleged price-fixers. These meetings are labeled "sinners" and price-fixing meetings are described as "pow-wow." One of Long's letters has a drug official explaining to his representative in Venezuela that the company "cannot compete with us" at the same level ... without destroying the price pattern."

It is also intriguing, but not surprising, to hear Long's charge that some drug outlets

have arranged payoffs to Latin-American government officials "to facilitate sales to governmental purchasers." Such payoffs could be made by drug companies, but it would be interesting to learn whether American officials likewise are being bribed to go along with the "price pattern."

**BUDGES** — This comment is not made out of malice, but from the record. Capitol Hill testimony has revealed a tender relationship between the Food and Drug Administration and the drug industry. FDA has been most generous in its policing of potentially harmful drugs on the border, but it would be interesting to learn whether American officials likewise are being bribed to go along with the "price pattern."

Long's charge is not made out of malice, but from the record. Capitol

Hill testimony has revealed a tender relationship between the Food and Drug Adminis-

tration and the drug industry. FDA has been most generous in its policing of potentially harmful drugs on the border, but it would be interesting to learn whether American officials likewise are being bribed to go along with the "price pattern."

**SOMEONE WITH AN IMPOSING TITLE** — Somebody with an imposing title also should look into Long's charges that the alleged cartel is a "a bunch of sissies" who don't deserve their competitors. The "he" is managed by the filing of patent infringement suits, excluding the mavericks from other markets, and waging a public relations campaign against the use-of-less-expensive-drugs-which-are-just-as-good-as-the-wonder-drug variety.

**STRANGE BENEVOLENCE** — One of the somethings whose feet should be held to the fire is the Justice Department, which has been shamingly inactive in prosecuting a shoddy and crass indifference to crime. Chas. E. Shultz, Attorney General, and Chas. F. Rostenkowski, attorney-in-chief — until

Long's speech, Justice had been reported

on the verge of consenting to a no-contest plea. It seems strange that although the indictment was filed, the Justice Department did not prosecute. Senator Long has been reported

as saying that he would file a bill to make it a felony for a doctor to prescribe a drug company to decide whether to call back bottles of an intravenous solution which had been mislabeled.

Somebody with an imposing title also should look into Long's charges that the alleged cartel is a "a bunch of sissies" who don't deserve their competitors. The "he" is managed by the filing of patent infringement suits,

excluding the mavericks from other markets,

and waging a public relations campaign against the use-of-less-expensive-drugs-which-are-just-as-good-as-the-wonder-drug variety.

**THE INCREASE IN 1966** — Twin Falls County came up with property assessments in 1965 of 12.5 per cent of cash value, based on the 1957-61 period. All property in the county last year was valued at \$48,416,597, an increase of \$2,246,171 over the previous year. That means that every taxing unit in the county automatically received more money from the same levy. It applies to school districts, cities, highway districts and the county itself, naturally. Unless something unforeseen happens, these taxing units will receive even more money on 1966 taxes, unless they lower their levies considerably.

The increase in 1966—and every year through 1969—would come from the so-called 20-20-40 law. Passed by the legislature in 1965, the law specifies that all counties must bring property assessments up to 20 per cent of full cash value for the 1957-61 period by 1969. In Twin Falls County, it would mean property assessments will increase from 12.5 per cent of full cash value last year to 14 per cent in 1966, 16 per cent in 1967, 18 per cent in 1968 and 20 per cent in 1969.

With corresponding decreases in tax levies each year, the total tax bill will increase each year.

The avowed purpose of the 20-20-40 law is to equalize taxation all over Idaho, the goal is admirable and one that should have been adopted many years ago. But this is the only way eight counties in Idaho can possibly comply with the letter and spirit of the law. Besides Twin Falls County, they are Blaine, Camas, Cassia, Elmore, Minidoka, Power and Bonneville. These are the only counties that have completed revaluation programs and brought assessments up to 12.5 per cent of the 1957-61 base period. Without revaluation programs, the other 36 counties will have to rely on guess-work if they are to comply with the 20-20-40 law. And without the expensive revaluation programs, there can be no equity in taxation around the state, the principal goal of the 20-20-40 law.

The new law specifies that residential and business property should be assessed at 20 per cent of full value, while utility property goes on the books at 40 per cent of value, hence the name 20-20-40. Right now, some 27 utility companies are challenging the legality of the law.

If the law stands and Twin Falls County has to take the first step, it will mean the assessed valuation of all property in the county will increase by some 12 per cent.

If the letter of the law is followed, there would be no increase in tax bills this year. The law specifies no tax revenue from the same source in 1966 and 1967. It remains to be seen if that provision will be followed.

A good example is provided by the tax levy for the City of Twin Falls. The city has set its mill levy for 1966, reducing the levy from 52 mills last year to 50 mills this year. But it-assessed-value

of property increased by 12 per cent, the city would receive \$58,351 more from 1965 levels. The only chance for a reduction in property tax revenue for the city is for county commissioners to refuse to accept the 50-mill levy or to refuse to take the first step to raise assessments under provisions of the 20-20-40 law.

The State Tax Commission of the courts could change the situation. But if nothing happens before Sept. 13, county commissioners will be under pressure to act.

That's the day they start considering tax levies. If nothing changes, property owners can expect to see tax bills increase every year for at least the next four years. It would have been worse if the sales tax hadn't cut levies!

**VIEWS OF OTHERS**

### RIGHT OF DISSENT

Georgia's refusal to seat a pacifist who had been elected to the House of Representatives is reminiscent of the hysteria that swept the country following the Civil War. In April, 1865, New York Assembly elected seats to five Socialists who had been duly elected to that body and had been accused of no crime. This outrage brought Charles Evans Hughes into the picture, and he fought his battle in the House. The outcome was a victory which represented to a majority solely because of the unpopularity of its views.

The Georgia House has now repeated the blunder which brought ridicule and chagrin on the New York Assembly in a much less sophisticated period of our history. The right of a representative, government, it had doubtless made a martyr of a foolish young man who had discredited himself as a potential legislator. By attempting to muzzle the critic, the House has violated the principles of democracy which it sought to condemn, for its flouting of a cardinal principle of American government was the official action of a legislative body.

The excuse for what has been done is that Julian Bond's expression of admiration for per-sonal rights and civil liberties is not in accordance with the principles of the Student Nonviolent Coordinating Committee of which he is publicity director. Some overtones of racial prejudice may have entered into the case, but this is not the whole story.

Apparently Governor Sanders has the issue clearly and sought behind the scenes to avoid the custer. By rejecting his good advice the House has drawn upon itself the criticism that otherwise would have been centered on SNCC's unfortunate blunder — Washington Post.

### A MUSIC NOTE

News that guitar sales in North America are still rising would strike a more responsive chord if more of the guitar players could strike one, Ottawa Journal.

### THE READABLE PRESS

They call newspapers second class mail, but they are better than some of the first class legacies we get. — Elizabeth K. (Ky) News.

### HOW'S THAT AGAIN?

It is claimed by certain authorities, that dark-headed men marry first. It is suggested in other quarters that it is the light-headed ones. — Northwestern Miller

## "We'll Just Wait for Him!"

## TAYLOR'S VIEWS ON WORLD NEWS

By HENRY L. TAYLOR

An American diplomat is being held in South Viet Nam. Yet by all accounts and every poll an overwhelming majority of our people haven't even a bare bones knowledge of the area.

The area is roughly the size of Oklahoma or Michigan and Indiana combined. Its official name is Viet Nam Cong Hoa, North Viet Nam. Nam Chu (South) is also used. It is about 1,000 miles long and 300 miles wide or 30,000 square miles.

The population in 1965 was 23 million in 241 districts (counties). This patch-quilt, of course, promotes vulnerability. South Viet Nam Foreign Minister Tran Van Do on Jan. 10 said: "Subversion — that is our task." This is true.

Approximately 2,500 villages

in the region are distributed land to the peasants.

Foreign Minister Chen Yi of Red China has predicted "there would be a liberation war in Thailand by the end of 1965."

This timetable was upset. But U.S. expert analysis found evidence of a fall in Laos Peking forces.

It is also involved in the struggle through guerrilla activity in northeast Thailand.

The bombing of North Viet Nam and steadily increasing numbers of refugees sent to Southeast Asia in the last half of 1965 may have jarred the Red timetable for Thailand.

It is not?

It is thought here that more guerrillas could be introduced from outside the borders, more arms could be sent in, and troops could be formed to defend the 40,000 North Vietnamese refugees still living in northeast Thailand.

Government experts here do not believe that the Chinese Communists will reach the stage where Communists can mount a Viet Nam-type war in Thailand. But a lot will depend upon how effective the Thai command to defend the royal government, abolish the communist, and encourage agricultural production.

This is the area where President Johnson has now pledged Bangkok additional resources to fight hunger, disease and poverty.

The ceasefires agreed July 21, 1965, in Viet Nam along the Ben Hai River on the 17th parallel, the Communists gained 22 provinces. The cease-fire provided for the withdrawal of personnel from the northern Laos and elections to determine the country's future.

The plebiscite to determine the country's overall status has never been held.

The Ho Chi Minh group, which set up its capital at Hanoi, is an offshoot of the Chinese Communists, which has never laid down its arms since the 1930s. Its leadership in Peking split Korea, overran Tibet, descended into Laos, and invaded India. North Viet Nam was only part of its rewards.

We hear mostly about the Buddhists, and something of the Catholics, but the basic religious philosophy is Taoism.

In Laos, so unknown to us, represents the tribal principal legend of the area. This announces that he never wrote a treatise until he was an old man. A frontier guard defected to him, and he insisted that on his way to retirement and insisted that the holy traveler put his doctrine in writing. Then there Laot-pao wrote the Tao-te-ching in 5000 words — the Tao-te-ching is an ancient scripture known to mankind.

There is slight hope for stability and common sense, for the nature of leadership in the Asiatic mind, as in most of Africa, is unrestricted power.

We face a fundamental problem, that while Communism can be imposed from the outside, democracy must grow from within.

## Elmer Smith Heads Idaho Grange Co-Op

GOODING — Elmer Smith, 49, was elected president of the Idaho Grange Co-Op at the first annual meeting at the Gooding Grange Hall. It was reported Saturday.

Other directors included Rodney Pearson, vice president; Morris E. Stewart, Beavue; Roy Mink, Gooding and Howard Hill, Shoshone.

The Idaho Grange Co-Op formerly was Idaho Grange Wholesale. Branch stores are in Shoshone and Gooding.

Wilson Churchman, manager, gave the financial report, and explained the re-organization. He told of the growth of the company during the last years, including installation of a 10-ton scale had been requested by the sheepmen in the area.

Bulk fertilizer equipment has been added to the Gooding store and blending facilities are available at both stores.

Rodney Pearson and Elmer Smith spoke for the group. Each

cooperative, Pearson and

Stewart, Beavue; Pearson and

Roy Mink, Gooding and Howard Hill, Shoshone.

I.E. MacReynolds, Portland, representative of Grange Co-

operative Wholesale, spoke briefly. Idaho Grange Co-Op is

affiliated with Grange Cooper-

ative Wholesale. MacReynolds

presented the financial state-

ment of GCW.

Churchman announced that a meeting on Trelton will be held

8 p.m. Monday at the Shoshone Grange Hall.

Introduced only two years ago, it is the fastest selling chemical

on the market, he said. It is

very effective against bean dis-

eases. All interested persons

## Psychopathic Animal Killer Haunts New Jersey Suburb

EAST ORANGE, N.J. (AP) — A psychopathic killer who calls himself "the animal man" has turned his tree-shaded block in this northern New Jersey suburb into an asylum of death.

To a visitor, Woodland Avenue appears like a perfect model of suburban America. Well-appointed one-family homes fronted by spacious lawns and arching maple trees create a picture

postcard setting.

But the people tell a different story. They tell of at least 17 household pets — two cats and 15 dogs — poisoned over the past five years.

They speak of children who have suffered from mysterious animal bites and scratches, and of incidents where the animal killer has been known to drop deadly strichine, a common form of rat poison. A dose less than a quarter the size of that aspirin can kill a child.

"It's another that haunts them daily," says King.

"I've been through Nazi per-

secution," the bombings in Lon-

don, a revolution in Venezuela

and now this," lamented Mrs. Margaret Hayes, whose house is not up for sale because of the mysterious poisonings.

Her 3-year-old Walmarancer dog, Rocky, suffered a fatal dose of the poison in the spring of 1964 while playing in the yard. Hayes, who has never listed the cause of death as strichine poisoning.

Then last October, Rocky's surviving son, King, was munched by a coyote in the Hayes' back yard. Mrs. Hayes spotted him as she was getting out of her car. She rushed to the animal and tried to wrest the

**SAVES BABY**  
POCATELLO (AP)—A Pocatello mother, Mrs. Patrick Moore, saved her baby's life by blowing her breath into its tiny lungs.

**Nine-month-old Steven Moore** was born convulsions late Wednesday night and stopped breathing. The quick-thinking mother immediately began to give him mouth to mouth resuscitation and the child became conscious again.

Young Steven is listed in fair condition Thursday at St. Anthony Hospital.

**GIVES FUNDS**  
WASHINGON (AP)—Bonner County School District No. 82 at Sandpoint will receive \$33,045 from the Office of Education. Sen. Frank Church and Rep. George Miller, both D-Idaho, said Thursday.

They said a payment of \$18 from a tentative fiscal year entitlement of \$44,660 made available to the district because it is in a federally affected area.

**RECEIVES AWARD**  
BOISE (AP)—Gov. Robert E. Smylie received a "bronze plaque" from the Insurance Institute for Highway Safety yesterday—the Gem state's fourth straight IHS award for its high school driver education training program.

Rep. Bert Martin of Boise, IHS' Idaho representative, made the presentation in Smylie's office.

The Idaho program began in 1961. A year later, A. D. Luke, insurance director, and Idaho won its first of four consecutive IHS awards.

**ONE-WAY STREETS**  
POCATELLO (AP)—Two major one-way streets were added one-way in June. Mayor Earl Fend held a meeting of the highway committee of the Pocatello Chamber of Commerce, Wednesday.

Rep. Bert Clark and Center will become one-way streets to form a couplet connecting with the Center Street Interchange on the new Interstate 15. The interchange should be complete in late August or early September, he said.

## Ski Races Scheduled At Pomerelle

BURLEY—Fourth annual ski races will be held by the Burley Lion Club Saturday, Feb. 20, for Saturday at the Pomerelle Ski Area. The ski races set for last Saturday had to be postponed because of blizzard conditions.

Registration will close at 11 a.m. the day of the races, which start at noon.

Both parents must sign a waiver for their children entering the races. Entry blanks must be filled out by all entrants and may be obtained from Jim Holland, Sr., general chairman of the event.

Three trophies will be awarded in each group. A total of 30 trophies will be presented to winners.

The races are open to youths 6 to 18 years of age throughout Magic Valley. The boys and girls will be separated and competition will be divided into two age groups.

Divisions: Novice, 6 and 7-year-olds; Novice, 8 and 9 years; Intermediate, 10, 11 and 12; Junior, 13, 14 and 15; and Senior, 16, 17 and 18.

The three ski racing courses will be set up on the Rose Top Hill, so the traveling public may see all of the racing course, Lion Club officials stated.

If transportation is needed to Pomerelle Ski area, cars will leave at 9 a.m. Saturday from West Pomerelle.

The Pomerelle Ski Inc. buses will leave at 9 a.m. from the parking lot next to City Hall, Twin Falls, to Neptune Inn, Rupert, and Pomerelle Inn, Burley. The buses return about 5:30 p.m. to loading places.

**EDUCATOR DIES**  
VILLANOVA, Pa. (AP)—The Very Rev. Edward V. Stanford, 69, former president of Villanova University, died Thursday in Davis, Fla., apparently of a heart attack.

**ROADS WANTED**  
BOISE (AP)—Congress was asked Thursday, in a joint memorial introduced in the Idaho Senate, to provide more funds for road construction on national forests in Idaho.

"Under the present rate of road construction," the memorial said, "it will take 100 years to complete an adequate national forest conservation road transportation system."

**TAX ELIMINATION URGED**  
BOISE (AP)—Elimination of Idaho's inventory tax—or phasing it out over a four-year period—will help many number of businesses, Thursday at hearings conducted by the House Revenue and Taxation Committee.

Several businessmen told the committee that elimination of the tax would improve the state's business climate.

One said many businessmen were led to believe the inventory tax would be eliminated with the adoption of a broad-based tax program in the state such as the one including the sales tax.

Rep. Max Rogers, R-Gem, who introduced the bill, said no action on the tax is planned in special session.

**ONLY BID**  
BOISE (AP)—The Spokane, Wash., firm submitted the only bid Thursday to drill a water well at Heyburn State Park near St. Maries in North Idaho.

Zinkgraf's Well Drilling of Idaho offered to do the job for \$2,846, the Idaho Department of Public Works said.

**SHOOTING ACCIDENT**  
GLENN'S FERRY (AP)—A Perry woman, Mrs. Elizabeth Smith, 44, was reported in serious condition as a result of an accidental shooting Thursday.

Deputy Sheriff George Taylors said Mrs. Smith told him she was attempting to hang a 12-gauge shotgun on a wall when the weapon fell and discharged. The blast hit her in the lower left side.

**LOW BIDDER**  
BOISE (AP)—Apparent low bidder to landscape and construct a sprinkler system on Interstate 15 between Pocatello Interchange and the Twin Falls Interchange is Vaughn's Landscaping Co., Inc., of Twin Falls, the State Highway Department said Thursday.

The department said the Twin Falls bid was \$12,727, the lowest of five bids received for the Benneck County job.

**Heart Disease Figures Quoted**

NEW YORK (AP)—The American Heart Association's annual report, published Thursday, says—at least 31 million Americans are suffering from heart disease, while 13 million more having "suspect" heart disease.

Thousands more are suffering from the aftereffects of stroke, the report said.

Heart and blood vessel disease accounts for 54½ per cent of the nation's deaths each year, the highest cardiovascular death rate in the world, the report said.

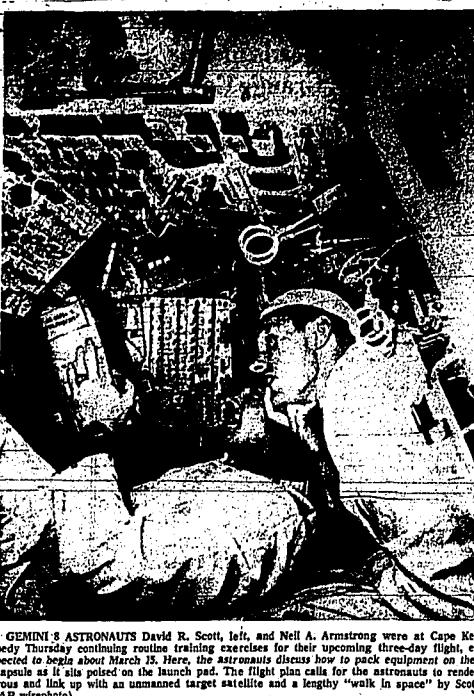

The races are open to youths 6 to 18 years of age throughout Magic Valley. The boys and girls will be separated and competition will be divided into two age groups.

The three ski racing courses will be set up on the Rose Top Hill, so the traveling public may see all of the racing course, Lion Club officials stated.

If transportation is needed to Pomerelle Ski area, cars will leave at 9 a.m. Saturday from West Pomerelle.

The Pomerelle Ski Inc. buses will leave at 9 a.m. from the parking lot next to City Hall, Twin Falls, to Neptune Inn, Rupert, and Pomerelle Inn, Burley. The buses return about 5:30 p.m. to loading places.

**EDUCATOR DIES**  
VILLANOVA, Pa. (AP)—The Very Rev. Edward V. Stanford, 69, former president of Villanova University, died Thursday in Davis, Fla., apparently of a heart attack.

## \$50,000 Prize Offered for Disease Cure

CLEVELAND (AP)—Establishment of a \$50,000 annual award to encourage research in the field of heart disease was announced Thursday night.

These two diseases rank as the largest killers of Americans. The prize, together with a medal and citation, will be awarded by the Cleveland Stouffer Foundation. Vernon Stouffer is the founder and president of Stouffer Foods Corp.

In money value, it exceeds the Nobel Prize in medicine, which ranged from \$10,000 to \$40,000, and the \$10,000 Lasker Award, the largest such price given in the United States.

"Strokes and heart disease are the most men's tickets to immortality," said Dr. Irvin H. Page, director of the Cleveland Clinic Foundation, in announcing the award at a dinner of civic leaders and national health authorities.

TWIN FALLS COUNTY HIGH POLICE BROTHERS  
Minor damage was reported from a two-car accident at 6:20 P.M. Wednesday when Mrs. Bruce H. Hatfield, 50, Buhl, buckled her car from a parking building on Ninth Avenue and it collided with a truck driven

by Thomas H. Johnson, 50, Buhl, which had just made a left hand turn into the alleyway. Damages were set at \$20 to the car and \$50 to the truck.

Lincoln County Sheriff's Office  
Quit claim deed was filed by Edward William Baylis to Katherine Baylis.

Warranty deeds were filed by Mr. and Mrs. Walter A. Schmedelin to Mr. and Mrs. George E. Byard Jr.; Mr. and Mrs. George E. Byard, Jr., to

Show Slated

BURLINGAME, Calif.—Second annual Burlingame Scout-O-Rama show will be held from 2 to 8 p.m. Saturday in the Burlingame High School gymnasium. The public is invited.

Cub Scout packs, Boy Scout troops and Explorer posts, as well as members of the Order of the Arrow, will participate in the show. Live action type entertainment will be provided by the Cub Scouts. There will be exhibitions of Scout craft work and traditional Order of the Arrow Indian dances.

The chamber will be filled with 7,000 gallons of liquid hydrogen under high pressure and covered in a temperature of 450 degrees below zero. The \$17-million project is to be used in conjunction with the laboratory's 12.5-billion electron volt smasher.

Big Bubble

ARGONNE, Ill. (AP)—The Argonne National Laboratory will construct the world's largest bubble chamber for studying "nuclear

particles.

The chamber will be filled with 7,000 gallons of liquid hydrogen under high pressure and covered in a tem-

perature of 450 degrees below zero. The \$17-million project is to be used in con-

junction with the laboratory's 12.5-billion electron volt smasher.

## Former Head Of General Motors Dies

NEW YORK (AP) — In his 90 years Alfred P. Sloan Jr. saw the automobile develop from a novelty to the greatest back bone of the nation. He was among the men who made it happen.

He took the moderately successful General Motors Corp. in 1920, made it function smoother than ever before, things he once sold, and wrought the mightiest manufacturing enterprise the world has known.

When Sloan stepped down as chairman in 1956, General Motors' share of the automobile market was 32 per cent.

His formula for success was simple.

"Get the facts. Recognize the equals of all concerned. Realize the necessity of doing a better job every day. Keep an open mind and work hard. The last is most important of all. There is no short cut."

Sloan, who remained as honorary chairman, had been in executive health for many years, when he complained of indigestion. He was taken the next day to Memorial Sloan-Kettering Cancer Center, a hospital his physician had established.

He died at the hospital at 2:35 p.m. Thursday.

Sloan was born in New Haven, Conn., on May 23, 1875. At the age of 17 he enrolled in the Massachusetts Institute of Technology and graduated in three years. Later, he became MIT's chief benefactor.

With the help of his father, a wealthy coffee and tea importer, he used his inheritance to buy a dry-dock at the Hyatt Roller Bearing Co. in Harrison, N.J.

He soon figured he could run the business better and purchased the Hyatt plant. He then had to put up \$5,000 for him to take control. In the first six months the business made \$12,000 in profits.

But it was the automobile business that made him a millionaire. He got the manufacturers to use ball-bearings instead of greased wagon axles. Within a few years General Motors was his largest customer.

Later, when General Motors acquired the Hyatt company, Sloan came along with it and quickly moved into the hierarchy of the company.

In 1932 he succeeded Pierre S. du Pont as president of General Motors.

His wife, the former Irene Jackson, whom he married in 1938, died in 1956. They had no children.

## Missionary To Give Talk On Nigeria

Residents of Magic Valley will have the opportunity to hear a representative of the African Mission in modern Nigeria play by Rev. O. L. Traub at 7:30 p.m. Wednesday in the Lynnwood Chapel.

Traub, field superintendent of the African Missionary Society in Nigeria, has been working there since 1957.

He is considered an authority on the Yorba language and it has been reported that some Yorba people will follow the Rev. in Nigeria have traveled many miles to hear "this amazing white man who speaks Yorba like a native."

Traub also has been an advisor, for six years, on staff of the magazine, "African Challenge." Other speakers are Rev. East Hosenberger and Miss Irene Montgomery, Nigerian, and Rev. Charles Carter, Brazilian.

The Rev. George Fuller, who has spoken and the public is invited to attend all sessions.

D. L. Mikel, pastor, said the Annual Missionary Conference will be held Tuesday and Wednesday at the Lynnwood Chapel.

## Three Honored

UNIVERSITY OF IDAHO, Moscow, Three Magic Valley students and one graduate of Idaho College of Agriculture students named to the dean's honor list for the first semester.

## Open Meeting Set March 1 By Grangers

WENDELL — Plains were convened for the "Operation Standard" meeting to be held March 1, at the Tuesday meeting of Wendell Grange No. 82.

This meeting is the annual open meeting and will begin at 7:30 p.m. with a potluck dinner.

Emil Jerome, State Grange master, Kuhl will be a guest speaker for this meeting. The program is being arranged by Andrew Kudlac, Grange lecturer, C. T. Crow, Grange master, was in charge of the business session. Pro-tom officers were Ben Guillford, steward, and Raymond Ruble, historian, and George Fuller, Pomona.

Mrs. Ruby, home economics chairman, reported that Lions' Ladies dinner will be served Monday evening and the lunch for the beef tour will be served Feb. 28. She asked that coffee break be turned off.

The report on safety was given by Raymond Ruby and Henry spoke of the price of milk and discussed the efficiency of the dairy processing plants.

Crow led a discussion on water conservation. Proceeding after the meeting, a potluck dinner was served.

Festured speaker for this week's Chamber luncheon meeting was Bruce C. Wende, industrial developer with the United States Department of Commerce.

Speakers from throughout the country will address the group. The Salt Lake City Chamber will serve as host to the assembly.

Parents to Meet

WENDELL — Parents of children of kindergarten age will hold a special meet at 1 p.m. Monday at the grade school all-purpose room.

Parents interested in kindergarten are urged to attend.

## Carey Men Attending Hearings

CAREY—Blaine County Farm Bureau President Jay Strode and two of his committee chairmen are attending the Legislative hearings on the Farm Bureau bill introduced in the Senate.

William Molynex, chairman of the commodity committee on potatoes, and Clifford Orchard, "Power in the People" committee chairman, accompanied Strode to Boise at the direction of the Farm Bureau meeting held at the Strode home Wednesday.

"Power in the People" committee members attended a school sponsored by the American Farm Bureau Federation on political education and action.

It was emphasized that no Farm Bureau—national, state, or county—may ever sponsor any candidate or political party.

However, individual members are encouraged to be active in the party of their choice, supporting candidates with their plurality of government.

## Mrs. Titus Is Vice President Of Civic Club

**JEROME** — Mrs. Frank Titus was elected vice president of the Jerome Civic Club at the February meeting, filling the vacancy created by the resignation of Mrs. Lorraine Sorenson. Introduced by Mrs. C. E. Harder, February program chairman, Mrs. Fred Nelson related a number of little-known facts about the club which he has collected as a result of her contacts at various time and places with "outlanders" who are either virtually unaware that our state exists or laboring under misconceptions as to its location and character.

Two duets were sung by Mrs. Warren Van Camp and Keith Johnson, and a solo by Fredwynn Lee. Accompanists were Mrs. Louise Scherer and Mrs. Raymond Ford.

Hostesses were Mrs. Gilbert Tilley, Mrs. Ivan Epperson and Mrs. John H. Smith. The program for the March meeting will be conducted by Mrs. J. D. Noland and Mrs. Pearl Overfield. Hostess are Mrs. Del Johnson and Mrs. Victor Cam-

## Mrs. P. Kraus, Scherbinske Are Married

The Gall Seventh-Day Adventist Church was the setting of the wedding of Mrs. Peggy Kraus, Gall, Calif., and Fred Scherbinske, Twin Falls.

The wedding service was officiated by Rev. Tony Neergaard.

The bride was attired in a silver gown enhanced with a silver necklace and a white cambric cap.

Mr. Jean Barb attended the reception which followed at Dorcas Hall. Evelyn Wardrip was in charge of the guest book. A three-tiered wedding cake topped with a single rose was centered on the bride's table.

The couple will reside in Twin Falls. \* \* \*

## Sewing Session Is Conducted

Goodwill Club members met with Mrs. Boyd Smith for a sewing meeting and potluck dinner.

After the meal, Mrs. Boyd Smith, the salute and Mrs. Otto Scherblin gave the prayer. Mrs. Ferrel Nelson gave the thought for the day. Mrs. Claude Stever was the hostess.

A special pal gift was presented to Mrs. Ronald Scherblin.

\* \* \*

**BREAKFAST RESERVED**  
**HAGERMAN** — Members of the Past Masters' Club were seated at a breakfast at the home of Mrs. E. L. Chaplin. The next meeting is April at the home of Mrs. Claude Allen, Twin Falls.

## Marian Martin Pattern

by Marian Martin

**HIT SKIMMERS!** Side darts winging up to shape a skimmer exactly, swiftly, easily. The pattern is a full year's wear — a delicious bit of flattery, sweetly scuffed. Easy to make in all fabrics.

Printed Pattern 9054 — Jr. Miss sizes 8, 10, 12, 14, 16, 17, 18. \$1.35. Fifty cents in coins for each pattern — 15 cents for each pattern — for first-class mailing and special handling. Send to: Marian Martin Patterns, Inc., Pattern Dept., 220 1/2 W. 48th St., New York, N.Y. 10011. Print name, address with zip, size and style number.

Go to Spring! Be a swinger — go to the beach! This season-filled Spring-Summer Patterns catalog. Choose one pattern from 125 — it was held after the meeting.

— \$1.00 coupon in catalog. Hurry. Next week's lesson is

and 90 cents for Catalog now. Literature lesson.

QUEEN ELIZABETH II of England, left, should raise her hemline and display a little more of the royal legs, Felicity Green, fashion columnist for the London Daily Mirror, suggests. Even a modest inch, she says. Princess

Margaret, center, has a hemline on the knee. Miss Green points out, while the Duchess of Kent, right, is "very willowy" since her hemline is "really above the knee. The Duchess is the queen's cousin by marriage. (AP wirephoto)

## Public Opinion Divided on Baring of Knees

**NEW YORK** (AP) — In grandpa's day the first sight of a sharply ankle-peeping, demure skirt—maybe four inches from the floor—sent many a gay blade into raptures.

To the serious family man of that time, though, it was cause for alarm against the wicked ways of young women.

Today the baring of the neck and less graceful joint, the knee, is again dividing public opinion.

With the Paris couture mostly signing off, dourness is in. London columnist has suggested Queen Elizabeth II raise her skirts a bit. Hers are now 3½ inches below the knees.

Here in this country a rampaging mob of knee-baring girls has decided that even those must be opposed to the premature bareness. Some are wistfully resigned than vehement.

With a shrug, David McCallum, 25, a New York designer, says peaceably: "Why not? So they'll go up an inch or two and then they'll go down again. The knee is an inch or two and then maybe back up again."

But the knee fashions struck out on the Hodges, manager of the Washington Senators baseball club.

"I don't care for them," Hodges says. "To me, short skirts are for a young child to wear."

On the other hand, Andy Warhol, a leading pop artist, likes them. "The shorter the skirt the better for the space age," he sees it. "They will go very, very short and then turn into shorts."

But the knee fashions struck out on the Hodges, manager of the Washington Senators baseball club.

"I don't care for them," Hodges says. "To me, short skirts are for a young child to wear."

At Vassar College, however, on the whole, most girls — except those at Vassar of course — don't have enough legs to be exposed above the knee. Mid-thigh would certainly be going too far."

Social historian and critic Cleveland Amory diplomatically skirts the issue of bare knees; "With some girls it's Ansley, with some girls it's Ansley, let's face it, no knees is good news."

"Any man who doesn't enjoy looking at pretty legs is not a good man," says Vassar's Davis Jr. Then he directed himself to women: "To hell with Harold Fowler, Harold Stanger and Donald Asher."

Donald was corrected by Mr. and Mrs. Waide Smith. Prayers were given by Lynn Page and his daughter, Linda. \* \* \*

**View LDS Unit Has Dinner**

**VIEW** — "Knights and Ladies" unit of the LDS Primary had its annual Primary Daddy-Daughter dinner and party.

General chairman for the event was Mrs. Scott Loveland, assisted by Mrs. Cecile Blauer and Mrs. Paul Tegan.

With some girls it's Ansley, with some girls it's Ansley, let's face it, no knees is good news."

"Any man who doesn't enjoy looking at pretty legs is not a good man," says Vassar's Davis Jr. Then he directed himself to women: "To hell with Harold Fowler, Harold Stanger and Donald Asher."

Donald was corrected by Mr. and Mrs. Waide Smith. Prayers were given by Lynn Page and his daughter, Linda. \* \* \*

**FHA Officers Are Installed**

**MURTAUGH** — Officers of the Murtaugh Chapter, Future Homemakers of America, were installed in annual ceremony at the high school.

Donna Stanger, outgoing president, installed the officers. Janice Bonner, president; Carmel Bonner, vice-president; Shirley Hranic, treasurer; Shirley Alberg, secretary; Julie Love, historian; Fay Petersen, hostess and recreation chairman; and Mrs. Carol Pimental, representative — Wilma Silvers, reporter; Deanna Egbert, general chairman; Jane Petersen, program chairman, and Linda Morrison, parliamentarian.

Officers were given by Mrs. Blanche Cooper and Mrs. Jean Sorenson.

Other officers installed were Mrs. Glen Petersen and Mrs.

Clyde Goodman, Mrs. Lucy Marla is chapter adviser.

## More Turkeys Expected for Coming Year

BOISE — Turkey growers in Idaho intend to produce seven per cent more turkeys in 1968 than were produced according to the crop reporting board.

Present plans of growers are to increase heavy breeds six per cent with heavy whites up 15 per cent and other heavy breeds down two per cent. Light breeds are an increase of 12 per cent is planned.

Assuming growers carry out their intentions, the total number expected in the nation would be about 112.1 million, compared with the revised estimate of 104.7 million turkeys raised in 1965. A crop this size would exceed the record crop in 1961 by four per cent.

Increased production is planned in all regions of the country. Increases planned are: Mountain West, seven per cent; Atlantic and West, each nine per cent; West North Central, seven per cent; West North Central, four per cent; and East North Central, up three per cent.

## Hilterbrand Holsteins Top Records

RUPERT — Jack Hilterbrand's registered Holsteins topped both herd and individual production records of the Holstein Improvement Association for January, according to B. T. Cranford, DHIA supervisor.

Hilterbrand's Holstein, Lila, produced 2,290 pounds of milk with a 4.3 test and 114 pounds of butterfat to top individual production and his herd of 14 milking Holsteins produced an average of 1,241 pounds of fat with 52 pounds of fat to top herd production.

A total of 20 herds numbers 735 head of cows, with only 620 milking, were tested during the month, and produced 724,571 pounds of milk and 25,508 pounds of butterfat.

The average of milk produced per cow, including dry cows, was .55 pounds and average pounds of butterfat per cow was .39. A total of 36 cows produced 40 pounds or more of butterfat.

Only one herd included 181 Holstein cows. John Thain, Thain, produced 83 pounds of butterfat from 2,376 pounds of milk at a 3.8 test; Nita, a registered Holstein owned by Jack Hilterbrand, produced 83 pounds of butterfat from 2,250 pounds of milk at a 4.2 test, and Nedra a Holstein owned by Aldo Dallolio, produced 84 pounds of butterfat from 2,111 pounds of milk at a 3.8 test.

Paula, a registered Holstein owned by Aldo Dallolio, produced 83 pounds of butterfat from 1,880 pounds of milk at a 4.9 test. Marlene, a registered Holstein owned by E. Roy, produced 87 pounds of butterfat from 1,970 pounds of milk at a 4.4 test; 122, a registered Holstein owned by Louis Bott, produced 88 pounds of butterfat from 2,207 pounds of milk at a 3.9 test.

Clarity, a registered Holstein owned by Jack Hilterbrand, produced 86 pounds of butterfat from 2,210 pounds of milk at a 3.8 test; Dust, a Holstein owned by Lester E. Roy, produced 85 pounds of butterfat from 2,170 pounds of milk at a 3.9 test and Shimmer, a registered Holstein owned by Aldo Dallolio, produced 84 pounds of butterfat from 2,055 pounds of milk at a 4.1 test.

Highest herd average include a herd of 41 Holsteins owned by Boyd Woodward producing an average of 44 pounds of butterfat from an average of 1,088 pounds of milk. A herd of 38 Holsteins owned by Geoff Dunham produced an average of 44 pounds of butterfat from an average of 1,944 pounds of milk.

Clarity, a 73 milking Holsteins owned by John Thain produced an average of 43 pounds of milk from an average of 1,168 pounds of milk and a herd of 27 Holsteins owned by Louis Bott and sons produced an average of 42 pounds of butterfat from an average of 1,105 pounds of milk.

LAWRENCE GRAY, left, seated, new member of the Idaho Commission on Aging, appointed by Chief Justice McFadden, Idaho Supreme Court, right, seated, as newest commission member when this picture was taken at Boise. Gray, from Nampa, succeeded Melvin Harrison, who resigned.

## Entomologist To Attend Course

WALTER E. FAY, Twin Falls, will be a guest lecturer in an intensive four-week training course Feb. 14 through March 11 at Kansas State University, Lawrence, Kan., evaluating and developing plants with resistance to insects.

The course, "Insect Control by Host Plant Resistance," will be directed by Dr. R. E. Painter, an authority on the subject. Specialists from the U. S. and Canada will assist with the program.

Conducted under contract with the Agricultural Research Service, this special course is the first on this subject to be held outside the Midwest and will be open to research personnel.

Purposes of this training course is to better qualify each entomologist to conduct cooperative research on host plant resistance to insects, a subject of interest to insecticide manufacturers.

As a result of the organic reaction mechanism study, three unique hydrocarbon structures previously unsynthesized (not before combined) were generated.

Also, a meeting in the study was given to Higham, a graduate assistant at University of Alberta, Canada.

The article was published Nov. 12 in the "Journal of Chemical Research." It is a journal devoted to short articles believed to be of urgent nature.

Dr. Freeman is a research fellow at University of Chicago, working with Dr. George Dierck.

BUTTER SOUGHT WASHINGTON — In line with recommendations of the National Milk Producers Federation, school lunch requirements for butter will be sought on April 1, 1968, by the authorizing committee of the Price Act of 1965. This will meet March requirements for school lunch needs.

EXPERIMENTS CHICAGO — Experiments are underway to separate male and female sheep by means of a specific insemination of ewes. In preliminary experiments by a German scientist the results are 80 per cent successful.

## Journal Prints Study Made by Idaho Professor

UNIVERSITY OF IDAHO, Moscow — An organic mechanism study by Dr. Peter K. Freeman, University of Idaho professor of animal husbandry, and his graduate student, Dr. V. N. Mallickarjuna Rao, has been published by "Chemistry Communications," the journal of the Chemical Society in England.

The study was part of Dr. Rao's doctoral research and was sponsored by the U. S. Air Force office of scientific research through a grant to the university.

## Contracts on Wool to Be Mailed Soon

SPOKANE — Wool contracts for 1968 will be mailed by the secretary of the Lincoln County Woolgrowers Association for the 1968 pool.

Final consignment is set for March 16. Final day-to-receive wool is the week of March 11. Date for March 20 when the association held its annual meeting at the courthouse here.

The association invites those not selling through them, who wish to do so, to contact the association's office.

Mei Chao, Boise, secretary of the Idaho Woolgrowers Association, was guest speaker at the annual meeting of the association.

Officers reelected for 1968 are: Charles Pendleton, vice president; and Alan Hopkins, secretary-treasurer.

Directors for sheep are: Forrest Armstrong, Richfield; Robert Onieder, Jerome; Hog Holt, Weiser; and Orlan G. Smith, Riddle.

Onieder, Jerome, Hog Holt, and Orlan G. Smith are new directors. Charles Pendleton and Alan Hopkins, secretary-treasurer, were reelected.

Processing Of Potatoes Up From 1964

BOISE — Potato processing in Idaho (plus Idaho potatoes processed in Malheur County, Ore.) from July through December increased 10 per cent over 1964.

Officer reelected for 1968 are: Forrest Armstrong, Richfield; Robert Onieder, Jerome; Hog Holt, Weiser; and Orlan G. Smith, Riddle.

Onieder, Jerome, Hog Holt, and Orlan G. Smith are new directors. Charles Pendleton and Alan Hopkins, secretary-treasurer, were reelected.

## Murtaugh Man Has Exclusive Use of Prefix

MURTAUGH — Russel Riggs, Murtaugh, will have exclusive use of the prefix "R" in his name, which is the acronym of the Lincoln County Woolgrowers Association for the 1968 pool.

Final consignment is set for March 16. Final day-to-receive wool is the week of March 11. Date for March 20 when the association held its annual meeting at the courthouse here.

The association invites those not selling through them, who wish to do so, to contact the association's office.

## Shoshone FFA Team Takes First Place in District Meet

Richard Tews, Kip Mills and Donald Coats, alternates, were District Presidents; Alan Marsh, Harry Johnson and Kevin Guthrie, alternates, were presented by Robin Wells, president of the Shoshone FFA chapter.

The competition was held Saturday at the Shoshone High School. Second place went to the Jerome team while the team from Twin Falls took third. As a result, the Shoshone and Jerome teams will compete in the area contest on March 2. They will compete with two other teams from the West Magic Valley district. The team from the Shoshone High School will compete in the state contest at Meridian March 31.

Judges at the district contest here were George Carroll, supervisor of agriculture; Jim Schmitz, chairman; Darrell Schmitz, agricultural instructor at Gooding; Neil Cross, agriculture instructor at Valley High School.

New Record Set

IDAHO FALLS — The sugar factory at Idaho Falls finished slicing beets for its current work season last week after setting a new record—for sugar production in eastern Idaho.

John O'Gorman, manager of the Idaho Falls plant, said the factory produced 142,500,000 pounds of sugar in its campaign which began early last October. Cleaned at the factory will come from 1,000,000 tons of beets.

This year's campaign was the fifth in a row that the factory had exceeded its own previous record, Mr. Olsen said. The record for production in eastern Idaho was set in 1940 at 138,600,000 pounds, also was broken this year.

## Production of Milk in Idaho Shows Decline

**BOISE** Total production of milk in Idaho was estimated at 169 million pounds during December, compared with 176 million pounds a year earlier and the 173 million pound 1959-63 average for December.

Production declined six percent this year from November to December, compared with the five-year average seasonal increase of seven per cent for the same period. Swiss cheese production was the only significant dairy product showing an increase in production from December, 1964.

Sharp decreases were indicated for creamery butter, American cheese and ice cream.

## Farm Bureau Opposed to Wheat Pact

**CHICAGO** — The American Farm Bureau Federation declares the International Wheat Agreement "unjust" and "a major contribution to the expansion of international wheat trade or U.S. exports" and should not be extended.

The agreement is scheduled to expire July 31.

President Charles B. Shuman made the organization's views known in a letter to A. E. Jaeger, associate administrator of the Agricultural Stabilization and Conservation Service of the U.S. Department of Agriculture.

Shuman wrote, "After reviewing the operation of this agreement since Aug. 1, 1964, it is our conclusion that it has not been effective in its purpose to expand the expansion of international wheat trade or U.S. exports. It is clear that much of the world wheat trade and a substantial portion of U.S. exports operates outside of the agreement. Despite its lack of success, the International Wheat Agreement is being cited as a precedent for additional commodity agreements and additional commodity agreements." For these reasons Farm Bureau is opposed to any further extension of the International Wheat Agreement."

## 1965 Production Of Milk Is Down From Last Year

**BOISE** — Milk production in Idaho during 1965 totaled 1,481 million pounds, according to the Idaho Crop Reporting Service for Idaho.

This output was down three per cent from the preceding year, and was 11 per cent below the record high annual total in 1963 of 8,320 pounds produced. Milk production in 1965 was 1.6 per cent below the 1964 total of 8,350 pounds set in 1964. Milk production farms did not offset an increase in production per cow, resulting in the decrease from 1964 to 1965.

## Idaho's Snow Survey and Water Outlook Reported

**Snowfall** in Idaho throughout the month of January was slightly above normal, which made for some early deluges and flooding, particularly as Willow Creek and Sand Creek in southeastern Idaho, do not have enough snow cover to prevent the soil freezing below 100 feet.

Particularly heavy storms occurred in the first week of January, and the precipitation was 100 per cent above normal in the Salmon Falls Creek area near Moscow.

In general, however, snow cover has been normal throughout the state as of the first of February. Usually about two-thirds of the total snow pack for the season is already down by Feb. 1.

Snow moisture sites indicate that moisture conditions beneath the snow pack are better than average. There has been no snow-melt at the higher elevations such as occurred last year.

While the soil beneath the snow pack is not saturated, very little snow-water will be absorbed by the soil this spring when the major snow-melt begins.

The prospects for a normal water supply in Idaho are good when the combination of normal snow pack, good soil moisture and excellent carry-over storage in the reservoirs are considered.

The streamflow forecasts made for the April through September period are considerably higher than the snow cover would indicate. This is true because the high water-producing drainage of each river has more snow and soil moisture conditions.

Forecasts made this early in the season are subject to a greater percentage of error than those made when the maximum snow pack is reached in the spring. In general, corrections from these forecasts are relatively slight unless a major change in storm trends occurs. The solar-powered telemetry measurements make frequent corrections possible to operate efficiently. The measurements from this system vary in accordance with those made on the ground at similar snow courses.

Burley — Rupert — Jerome — Hazelton — Twin Falls

**PUBLIC**  
**Auction**

As I have sold my farm I will sell the following machinery at Public Auction on my farm located 3 miles South of Burley, Idaho, on the Oakley Highway.

SALE TIME: 12:00 P.M. Lunch will be served by the Claremont Grange Ladies.

**TUESDAY, February 22**

## GROUND WORKING EQUIP.

International No. 3 Tumble Plow, 18' bottom, harrow hitch.  
9 section steel harrow, folding draw-bar, 2 section steel harrow, ...  
International No. 30 disc, 10-ft., lift type — Bauer alfalfa crowner, 6-ft. Culti-packer — Walking plow, John Deere manure spreader on rubber.

Mount Vernon phosphate spreader, Miskin scraper, on rubber.

**OTHER EQUIPMENT**  
A-C Cultivator, 6-row — Sub soiler, International No. 46' Hay Baler, with dual wheels.

14-ft. Till and Pack — Dump rake, Allis-Chalmers side dump, on rubber, Tool Carrier for M tractor.

International M-1 Beet Topper, in good condition.

Case Grain Drill, 12-hole, seed attachment — A-C Mower, Front Cultivator for J.D. A., John Deere No. 5 Trail Mower, John Deere Tool Carrier.

**TRACTORS**  
International Super M Tractor, with wide front end and single front wheel, motor is in good condition, fair rubber.

John Deere A tractor for parts, good rubber.

1961 Massey-Ferguson No. 35 Diesel Tractor, good rubber, good condition.

**TERMS: CASH DAY OF SALE**

AUCTIONEERS: Gaylord Phillips & Orville Sears

CLERK: Jess Slaughter

## Lessening of Acre Control Setup Seen

(Continued From Page 2)  
company alone is spending nearly a million dollars a year on research. For instance, right here in Twin Falls, the Idaho Soil Conservation Research Farm has a thumb on production and control of the seed we put out."

He recalled that most wars of history have been caused because one side or the other was stronger. "It's difficult to visualize what would add to the difficulty facing world leaders today, he said.

Turning his discussion to other fields, Corbett pointed out that only three and one-half per cent of the land in the state is marginal land. If marginal land is included, he estimated the figure would still not be more than five per cent.

In the field of politics, he declared the "political power of the farm residents is dying."

"Farmers make up about 12 per cent of the population now and by 1980 this will shrink to about four per cent," he declared.

He said mechanizing is changing farming methods and the entire farming concept.

Concerning local condition he expressed the opinion that Idaho is to be considered a growing area in the United States.

"You can produce a wider range of variety seen than any other area I know of," he declared.

He told of technical advances being made in the field and pointed out that the rule of the day is "to produce the best quality of seed at the lowest cost."

If we cannot do this then we cannot survive in today's competition," he said in closing.

## Seed Concern May Aid in India Crisis

(Continued From Page 8)  
exposed he noted.

With hydroelectric power in the picture it would be used as a human rather than a stock food and, right now, it is practically unknown in India.

In the United States, Indian government has imposed certain restrictions that have discouraged foreign investment in the agricultural field.

Now officials think that these attitudes may be changing.

One factor in the pressure now being applied by the United States to compel food aid recipients to take more dramatic steps toward self-sufficiency in their own agriculture.

Another nationally known company, with headquarters in Minnesota, also has a study team in India to help develop its market. This is Cargill, Inc. It is also an agricultural firm.

Full particulars as to the next steps these two concerns will take in the India crisis will await the results of the study program now under way.

## Higher Dairy Support Prices Are Expected

WASHINGTON (AP) — Higher government price supports are in the offing for dairy farmers.

The support level of manufacturing milk presently is \$3.24 a hundred pounds. The level is designed to reflect 75 per cent of the dairy price of milk as of last April 1.

But a new support level for the marketing year beginning April 1 will be announced soon, it was said. Parity is a price goal of farm policy.

Assuming that the Agriculture Department decides to place the new support at the minimum legal level, which is 75 per cent of the parity price, the parity price will have to raise the price because the parity of manufacturing milk is higher than it was last April 1.

Farmers reflecting 75 per cent of the present parity would be \$3.31 a hundred pounds.

ATT

# Today's Market and Financial Report

**NEW YORK (AP)** — The stock market took a moderate loss early this afternoon in active trading.

Key stocks — continued their decline of yesterday, settling downward again today. At the close of session, specially-sifted issues were strong.

Wall street was concerned about rising interest rates, tight credit and a possible bond strike. It was also worried about "men" required in buying stocks on credit. Faced action in that respect by the Federal Reserve Board did not take place, as stocks had expected.

Aerospace issues, helped by strength in Boeing, were on the upbeat. Motors were mixed and steel mostly unchanged except for U.S. Steel which took a fraction.

The Associated Press average of 60 stocks at noon was off .8, 303.6, with industrials off 1.0, 303.6, and utilities off .4, 299.8. Both groups were in strong, combed, rising more than 3 points, following word from the

Federal Aviation Agency that the Boeing 727, which has been involved in two fatal accidents, is "completely airworthy."

United Aircraft rose 1 and Douglas Aircraft a fraction.

Studebaker continued to gain, rising more than 2 points in six days to its latest record day that the California investment house of Klemm, Bell & Co. had bought 200,000 shares of Studebaker.

Some airline stocks picked up, Eastern and United each gaining a point.

A place among the volume leaders seemed assured to G.C. Morris, which had a 100-share block of 63,000 shares, with the stock unchanged at \$22.

General Motors lost nearly a point, down to 301.50, while Ford, GM, Detroit, American, Polaroid, Zenith and Chesapeake & Ohio.

Gains of about 2 points were seen by Texas Gulf Sulphur, Textron and General Mills.

The Dow Jones industrial average at noon was off .267 at 972.50.

Prices advanced in heavy trading on the American Stock Exchange. Syntex rose about 4, American Books, Soltron, Delivices, and Valley Metallurgical about 3 each. Up about 2 were Allis-Chalmers, General Electric, and Minco. Fractional gainers included Wshire Oil, Breeze Corp., Allied Paper and Continental Materials.

Corporate and U.S. Government bonds were mostly unchanged.

# Clay Reclassified 1-A, May Be Called in March Draft, Board Indicates

LOUISVILLE, Ky. (AP) — Cassius Clay was reclassified 1-A Thursday, making him immediately eligible for military service, and the world heavyweight champion promptly went to war with his draft board. "Why me? Why me?" the heavyweight champion asked in Miami, Fla. "How did they do this to me?"

"I'm the heavyweight champion of the world?" Then he launched into a long tirade

## Russians to Debut In New York Meet

NEW YORK (AP) — A flock of Russians will be making their New York debut and John Pennel once again will go for 17 feet, but the highlight of the New York Athletic Club Games Friday night still has to be the clash between Tommy Farrell and Bill Crothers.

Jim Grelle will be there, attempting to keep alive his season-long, unbeaten string in the mile against young Jim Ryan of Kansas, spectacular Tennessee freshman.

Richard Johnson will try and double and the two men could be a dandy, but it's still Farrell vs. Crothers.

If it comes off.

Farrell, the tough little St. John's runner who ranks this country's best half-miler, is still nursing a slightly sore leg, and won't know until he wakes up Friday night whether he will run against the formidable Canadian in the 880.

"There's no definite word on Farrell," said Coach George D. Johnson. "He's right now; he's running and defending, but we just don't know for sure until he tests the leg in Madison Square Garden before the race."

Their rematch had looked as the highlight of this oldest of all the indoor meets, perhaps as the top match-up in the season.

Crothers, the long-distance specialist, generally is regarded as the finest indoor mid-distance runner—in the world, practically unbeatable at distances from 600 to 3,000 yards. He's undefeated at this range this season.

Farrell has beaten him only once, in the half-mile in this meet a year ago, leading Crothers home in 1:49. Crothers, however, had run himself into exhaustion in an extensive string of competition and had collapsed in a race just two weeks ago.

Now it's the reverse. Crothers has been out of competition for two weeks training for the rematch, while Farrell has run himself into exhaustion in a race just two weeks ago.

If both are healthy, and they could be, Bartold will do the racing, Farrell will do the running in the 880. Eddie Robinson, the former Missouri star, ex-Seton Hall ace George Germann and Rustin Remir Mirrofano.

The one to beat is Victor Konyayev, in the middle. Gennady Bilitsynov, in the pole vault, Sergei Moshanov in the high jump and Igor Ter-Ovanesyan, in the triple. Oleg Olyanov, Lyman Lyons, Eddie England and New York veteran Charley Mays. In the broad jump,

**Ref-Coach Row Features 76ers' Win**

LOS ANGELES (AP) — In a game enlivened by a near fight, Fred Schaus and referee Earl Strom at halftime, the Philadelphia 76ers swept to an easy 136-121 victory Thursday night over the Lakers, 76-75, in the National Basketball Association play-off.

Schaus, taking exception to what he considered the rough-house tactics of Wilt Chamberlain, complained about the Lakers' lack of sportsmanship. The two teams were heading for dressing rooms.

In the hot exchange that ensued, Strom tried to get an official to rule on the question, whom he beat Wednesday.

After a hot first-half battle, the 76ers had the lead at the break. They then got hot in the third period and outscored the Lakers 39-23 to turn the game

## Utah Staters Cop Win Over Seattle

LOGAN, Utah (AP) — Utah State's Larry Angle and Dennis O'Brien combined an inside-outside combination to beat Seattle University Thursday night 84-74.

And the board indicated his name would be included in the March 10 ballot.

Clay, 24, had been deferred after failing mental aptitude sections of his examinations. He was reclassified under new lower standards established earlier this month for the need for more men.

"I can't understand why they do this to me. Why be anxious to take me—man who pays the salary of at least \$20,000 men a year?" Clay said.

Clay is in Miami training for a March 28 fight with Ernie Terrell in Chicago—a bout which is jeopardized because of Clay's expected early callup.

"We're in the dark, with a promise to the junta that we'll know whether Clay definitely is out of the fight," said copromoters Irvin Schoenwald and Ben Bentley in Chicago.

Clay's new classification can be a blow to him, his manager, W. J. Jacobs, of New York, said no decision had been made. Jacko testified before the board for about 40 minutes.

"I want to keep confidence high," said Jacobs, "but I'm not afraid," Jacko said.

Seattle's shooting problems were augmented by the second half of the game.

Their coach, Tom Johnson, and senior titles will be decided beginning at 9 a.m. Sunday.

**Coody Leads First Round At Tucson**

TUCSON, Ariz. (AP) — Charles Coody, a 25-year-old boxer, rebounded from a boppy start under 67 and took the first-round lead in the \$60,000 Tucson Open Golf Tournament.

The Fox Worth pro caught up on the front nine, which he played last.

He ended the 520-yard par 5 second hole, hitting a two-wood, followed by a three-iron and sinking his putt.

One stroke back were Dick One and Mason Rudolph.

Grouped at 69 were Larry Griggs, Tom Campbell, George Doug Sanders, Jay L. Gordon, Dickie Dickinson Jr. and Bob Johnson.

Scores generally were better than expected on the 7,200-yard course, with the Fox Worth sprawling par 36-57-72 desert layout. The pros were pessimistic after Harold Kneee, with 69, was the only player to crack 70 in Wednesday's pre-tournament.

If both are healthy, and they could be, Bartold will do the racing, Farrell will do the running in the 880. Eddie Robinson, the former Missouri star, ex-Seton Hall ace George Germann and Rustin Remir Mirrofano.

The one to beat is Victor Konyayev, in the middle. Gennady Bilitsynov, in the pole vault, Sergei Moshanov in the high jump and Igor Ter-Ovanesyan, in the triple. Oleg Olyanov, Lyman Lyons, Eddie England and New York veteran Charley Mays. In the broad jump,

**Giant Killer Rips Osuna In Net Meet**

SALISBURY, Md. (AP) — Glankill's Tom Osuna, of Bradenton, Fla., and Robin Lingle, the former Missouri star, ex-Seton Hall ace George Germann and Rustin Remir Mirrofano.

The one to beat is Victor Konyayev, in the middle. Gennady Bilitsynov, in the pole vault, Sergei Moshanov in the high jump and Igor Ter-Ovanesyan, in the triple. Oleg Olyanov, Lyman Lyons, Eddie England and New York veteran Charley Mays. In the broad jump,

**Engle Resigns Penn State Job**

UNIVERSITY PARK, Pa. (AP) — Charles A. (Chip) Engle, whose successful Penn State football teams ranked him among the nation's 25 winningest in consecutive seasons, is quitting the coaching staff.

Engle, who will be 60 years old on March 26, will retire effective July 1. He thus makes good an oft-repeated statement he had planned to do.

Engle's 16-year record at Penn State was 104 victories, 45 defeats, and four ties. Only the 34 team of 1953 failed to finish on the plus side.

Engle will continue as professor of physical education until 1971, when he will become professor emeritus of the university.

Engle's 16-year record at Penn State was 104 victories, 45 defeats, and four ties. Only the 34 team of 1953 failed to finish on the plus side.

Engle will continue as professor of physical education until 1971, when he will become professor emeritus of the university.
